Business Licenses & Structures

We assist clients with commercial (trading), professional, and industrial (manufacturing) licenses. Our advisory covers mainland company formation, foreign investment structures, investor visas, and regulatory compliance. Each setup is structured based on the client’s business activity, ownership requirements, and long-term plans in Oman.

Government Liaison & Compliance

Our work involves regular coordination with the Ministry of Commerce, Industry and Investment Promotion, Royal Oman Police, and the Oman Tax Authority. Our services are delivered through a combination of licensed consultants and experienced in-house professionals to ensure full compliance with Omani laws.

Our Team

Our operations are supported by an experienced team including Danish Fareed as Operations Head, Anam Ibrahim as Business Development Manager, Servery Syeda as Client Relations Officer, and Adil Ahmad as Business Setup Consultant. Our Working Approach

We follow a transparent and compliance-driven approach. Our process begins by understanding the client’s business goals, budget, and timeline. We then recommend the appropriate license and legal structure, explain ownership rules, and outline clear costs and realistic timelines. We remain involved throughout the setup process and continue to support clients after business formation through renewals, amendments, and ongoing compliance.
